

The products below are series expanding products designed based on L82B68G2(insert arrangement 64+4+2). Their configuration and contact types are the same with L82B68G2, and the differences are the amount, length, direction and dimensions of $\Phi 0.8$ contact. Other configuration and dimensions are the same. Detailed insert arrangements are in the figure below. Contact cavity arrangement sequence in the figure is the sequence for receptacle mating interface.

40 - $\Phi 0.8$, 4 - $\Phi 1.5$, 2 - Coaxial

52 - $\Phi 0.8$, 4 - $\Phi 1.5$, 2 - Coaxial

76 - $\Phi 0.8$, 4 - $\Phi 1.5$, 2 - Coaxial
