

GaAs monolithic integrated driver amplifier  
0.9~1.3GHz

Typical test curve

GaAs monolithic integrated driver amplifier

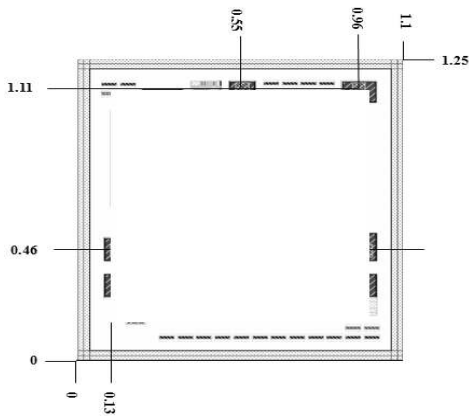

0.9~1.3GHz

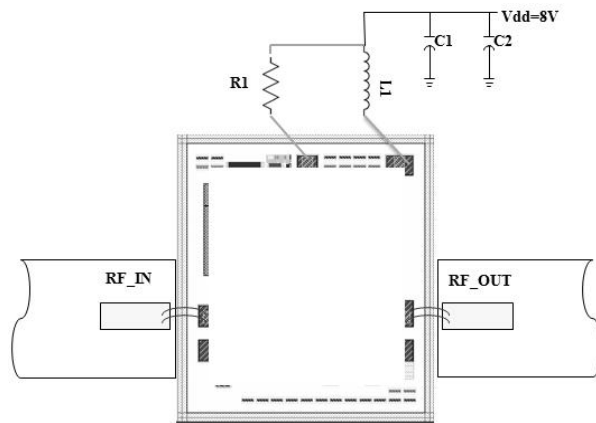

Component list

serial number	Numerical value	model	manufacturer	Encapsulation
R1	300Ω	-	-	0603
C1	330pF	GRM1885C1H331JA01	Murata	0603
C2	10nF	GRM1857U1A103JA44	Murata	0603
L1	10nH	0603LS10NXJLC	Thread art	0603

Shape and port size (mm)

Recommended assembly drawing

Precautions

The gallium arsenide gallium arsenide MMMIICC device components are susceptible to damage caused by static electrostatic discharge. . Preventive measures should be taken during transportation, transportation, assembly, and testing. .
